Have You Noticed The Names In Black Face Type?

The Names

Appearing in BLACK FACE type in this Directory represent those who are public spirited and appreciate the fact that LOCAL ENTERPRISE is the power behind the City Directory, in brief, they are the Citizens who are making business- and history-for-your City. The publishers are honored in making them better known to the public.

Patronize Them!

The City Directory

Represents Conditions Today— History Tomorrow

The men who direct the affairs of the city and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the world as no other publication does or can do.

It is the logical means of publicity in advertising the city, its industrial, commercial and social advantages.

Patronize the City Directory and you automatically boost your own business.

The sign over your door is a mighty good investment, but just consider how much "mightier" investment the Directory offers you.

THINK IT OVER!

NUMERICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to street descriptions and their location on city map.

Information—as to the location by number of intersecting streets and their relation to other numbers.

Information—as to the name of every householder at any given street number.

Information—as to the name of every place of business and its nature at any given street number.

Information—as to the location of telephones (🔔) by street number.

Information—as to resident home owners. ◎

Information—as to the character of any street or district.

Information—as to the number of families living at any number and who they are.

Information—as to the correct spelling of names when addresses are known.

Information—as to sections capable of producing the greatest amount of business by personal solicitation or "direct mail".

—Finally—

It takes the "Who is it?" out of your neighborhood and adds another link to your chain of friendliness

THE PRICE & LEE CO.

NEWARK NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)
The abbreviation "r" between the street number and the name signifies "rear."
The word "vacant" after a number signifies that the house, office or store at that number was vacant when canvass was made.
ΔIndicates telephone at this number.
"Right odd" after street description indicates odd numbers on right side of street.
The symbol ◎ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
